Ukrainian — Native

Experience:

Stoba Precizní Technika s.r.o. / CNC Operator
Jan 2024 – Present, Brno
- Operated CNC machines with 6 vices (fixtures).
- Performed inspection and measurement of parts according to technical documentation and tolerances.
- Ensured dimensional accuracy within 0.03 mm.
- Applied corrections to CNC programs (offsets, tool corrections).
- Conducted quality control using 3D measuring machines (CMM).
- Worked with microscopes for small and high-precision parts.
- Performed machine maintenance and basic setup.
- Worked with Fanuc control systems.
- Followed production standards and quality requirements.

AW Tools International s.r.o. / CNC Operator-Programmer
Mar 2021 – Dec 2023, Brno (2 years 9 months)
- Operated 2-axis and 3-axis CNC machines.
- Inspected parts and ensured quality according to technical drawings.
- Used 3D measuring machines (CMM) for product verification.
- Wrote Python scripts to automate production processes.
- Optimized machining cycles to improve efficiency.
- Adjusted machining programs and parameters.
- Monitored production processes and resolved deviations.

TechnoPrecision / CNC Operator-Programmer
Jan 2019 – Apr 2021, Kharkiv (2 years 4 months)
- Operated CNC machines (milling and turning).
- Set up and prepared equipment for operation.
- Performed quality control using measuring tools.
- Read technical drawings and worked within tolerances.
- Optimized machining parameters for accuracy and productivity.
- Maintained equipment and ensured proper operation.
- Worked with Siemens control systems.
- Followed safety standards and production procedures.
