Ukrainian — Native

Experience:

Stoba Precizní Technika s.r.o. / CNC Operator
Jan 2024 – Present, Brno
• Operated CNC machines with 6 vices (fixtures).
• Performed inspection and measurement of parts according to technical documentation and tolerances.
• Ensured dimensional accuracy within 0.03 mm.
• Applied corrections to CNC programs (offsets, tool corrections).
• Conducted quality control using 3D measuring machines (CMM).
• Worked with microscopes for small and high-precision parts.
• Performed machine maintenance and basic setup.
• Worked with Fanuc control systems.
• Followed production standards and quality requirements.

AW Tools International s.r.o. / CNC Operator-Programmer
Mar 2021 – Dec 2023, Brno (2 years 9 months)
• Operated 2-axis and 3-axis CNC machines.
• Inspected parts and ensured quality according to technical drawings.
• Used 3D measuring machines (CMM) for product verification.
• Wrote Python scripts to automate production processes.
• Optimized machining cycles to improve efficiency.
• Adjusted machining programs and parameters.
• Monitored production processes and resolved deviations.

TechnoPrecision / CNC Operator-Programmer
Jan 2019 – Apr 2021, Kharkiv (2 years 4 months)
• Operated CNC machines (milling and turning).
• Set up and prepared equipment for operation.
• Performed quality control using measuring tools.
• Read technical drawings and worked within tolerances.
• Optimized machining parameters for accuracy and productivity.
• Maintained equipment and ensured proper operation.
• Worked with Siemens control systems.
• Followed safety standards and production procedures.
